

New Model Information

For Shimano's Middle Size Reels!!!

FEATURE

■SPOOL 『NO LIMITS 11TP4000』

Until now, we had only been offering our 4000 size spools in a shallow capacity version. This time, we are offering our 4000 size spool in the manufacturers stock depth!!
Line capacity PE#3-200m/#2-300m.

●New concept item!! Large Arbor Sheet!!

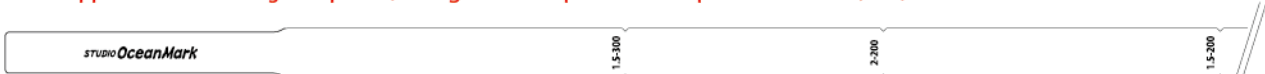

We have included this arbor sheet to make wrapping on your desired line diameter and length a cinch!! All you must do is cut the sheet at your desired length marking and attach to the spool!!

Available markings are as follows PE#2-200m/150m, PE#1.5-300m/-200m/-150m, PE#1-300m/-200m/-150m.

※It is applicable also to original spool. (Arrangements as parts are also possible! JPY¥2,100)

'12VANQUISH4000XG with NO-LIMITS custom parts attached.

▲As shown above. If you cut the sheet at this marking and attach to your spool, you will be able to reel on 200m of #2 PE line. Simple&Smart!!

●Super light weight design

This spool is made from extremely durable and light weight duralumin. Hold it for yourself and feel the difference..
SOM=40g / 12VANQUISH4000=43g / 11TWINPOWER4000MG=53g

●OVAL SHAPED SCANDIUM SPOOL RING

●EX SMOOTH DRAG

■HANDLEL 『NO LIMITS 10SL4000RA-S』

Our 4000 size handle is compatible with all 10Stella and 11Twin Power reels!

Our handle is equipped with a large knob and long handle arm length for increased sensitivity over your current stock parts. Even with the increased length and knob size, our handle still weighs only 35g!! The same weight as the stock handle.

●EVA AC30 Handle Knob ●64Ti Rail Arm 58mm

●TB340H Titanium Handle Shaft ●Tiny Greaseless Rust-Resistant Bearing

※These parts are based on the '12Vanquish(size)

While using these parts on a Twin Power, please close your bail manually(BY Hand).

If you try to close the bail by turning the handle, the bail arm will hit the handle arm and possibly get damaged.
