

New Model Information

Super-sensitivity! Bearing Sensor /30t Carbon Arm

Introducing our highly sensitive "NO-LIMITS" AG37&AG30 light jigging handle arms.

●Bearing Sensor

Our 2pc "Bearing Sensor" handle knobs incorporate a large handle knob coated with a non-slip EVA material. These knobs will assure maximum sensitivity yet ergonomic performance to all anglers.

●30t Carbon Arm

Handle arm is made from high elasticity 30t carbon fiber.

●Titanium Rivet

We have attached the handle shaft to the handle arm using a highly sensitive yet extremely lightweight titanium rivet. This rivet is the key point to maintaining ultimate sensitivity.

Bearing Sensor

Placing your finger tips on the part shown in the above photo while fishing will enable you to feel even the softest of strikes!!

■Bait Handle NOLIMITS AG37BS (L / S)

Will allow you to easily control even the heaviest of jigs in the roughest of seas.

- Extremely hard EVA AG37 Handle knob+Bearing Sensor
- Antirust stainless steel bearing x3 piece
- Carbon Machine cut handle arm(65mm)
- Counter balancer

■Bait Handle NOLIMITS AC30BS (L / S)

The perfect balancer equipped on this handle arm will allow you to reel smooth and consistent all day long.

- Extremely hard EVA AC30 Handle knob+Bearing Sensor
- Antirust stainless steel bearing x3 piece
- Carbon Machine cut handle arm(53mm)
- Perfect balancer
